

Yandell Truckaway, Inc.

Yandell Truckaway, Inc. is a family owned and operated Logistics Company that has been servicing the California wine industry since 1945. We are at the forefront of the trucking industry's Green movement by combining power units compliant with EPA's SmartWay program with more precise fleet management tools. Our aim is to reduce carbon emissions by adopting fuel saving strategies and reducing our average fleet speed. We have truck terminals in Napa, Benicia, Tracy, and Salinas; which are the hubs for our 125 power units and 350 trailers. In order to service our customers more efficiently, all terminals are networked to our main office, and all of our power units are equipped with digital two-way communications. Our logistics company currently has seventy five carriers under contract servicing the 48 states, Canada, and Mexico. Our focus over the past 65 years has been to provide excellent customer service while maintaining a high level of integrity and safety. Please visit our website at <http://www.yandell-scw.com>

Santa Clara Warehouses, Inc.

Santa Clara Warehouses, Inc. are two warehouse facilities centered in the nucleus of the wine industry in American Canyon and Benicia. Our warehouse distribution and repack operations are especially oriented to empty containers and full product. Repack capabilities are case to case and bulk to case. We also offer specialty services such as re-labeling, gift packs, and "club store" packaging. In addition to repack, we also offer reselection services; our reselection staff has over 20 years experience and specializes in cosmetic and integral defects. In an effort to reduce our warehousing operations' CO2 emissions, we have adopted new material handling equipment that is in compliance with the California Air Resources Board. Our material handling equipment is designed for space utilization and to minimize damage. In conjunction to our warehousing services, we have an in house Logistics Company which enhances the various services we offer, and provides a full service production facility.
