Service

Separators, Inc. is your one-stop solution for centrifuge service needs.

We have North America's largest independent organization of service technicians who work on high-speed disc and decanter centrifuges from Alfa Laval, Tetra Pak, Westfalia and many other brands.

Our preventative maintenance adds productive life to equipment – improving its efficiency and maximizing uptime. Should you need a repair, Separators, Inc. answers calls 24/7 and promptly addresses repairs at your facility and / or at our fully equipped Indianapolis facility. Plus, we offer rental equipment to keep you running as well as knowledgeable consultation and training services.

Get started today by calling Separators, Inc. for your centrifuge service needs.

Field Service

Separators, Inc. technicians provide preventative maintenance, scheduled repairs and emergency service at your facility. Located nationwide, our technicians arrive on time with necessary parts and a resolution to stay until you're satisfied with their work. Plus, our non-binding preventative maintenance agreements are a cost-effective way to maintain efficient operations.

Shop Service

For major repairs like bowl balancing or complete remanufacturing, Separators, Inc. has the necessary mechanical, machining, welding, balancing, bead-blasting and painting tools at our Indianapolis facility. For customers needing immediate assistance, we expedite emergency repairs. We also offer timely estimates and rental equipment to minimize lost production time.

Automation

Get the most from your separator with a cost-effective, easy-to-use automation system from Separators, Inc. We'll update automation of existing equipment or include an automation package with your purchase of remanufactured equipment. Support and training are available for control panels, variable frequency drives and / or integrating into your centralized system. Also, our experienced controls manager provides on-site service, training and troubleshooting.

Consulting and Training

The training staff at Separators, Inc. is ready to share more than 25 years of experience in proper equipment maintenance with our customers. From basic centrifuge principles to operator training, we tailor on-site instruction to your needs. Our knowledgeable consultants can also identify opportunities to improve, or develop new solutions for, your separating needs.

Take advantage of expert, efficient service from Separators, Inc. today.
