Metrics Show Steady Growth as Harvest 2014 Arrives

Healthy growth rates prevailed in the Wine Industry Metrics through July, as off-premise sales increased 6% in the past year, and both direct-to-consumer shipments and the Winery Job Index grew by double digits. The growth rates of offpremise sales for the month and the past year shrank by 1% each since January, but the rate of DtC sales grew by 2%. Perhaps the most immediate sign of winery optimism was the 12-month growth rate of 19% for winery job activity, according to Winejobs.com.
