To create the Momentum Brands list the Symphony IRI Group (SIG) started with the top 250 brands by volume in from their total U.S. multi-outlet results for 52 weeks ending Jan. 6, 2013, and created a power ranking by the following measures:

- Volume sales
- Volume sales actual changes vs. year ago
- Volume sales % change vs. year ago
- Quality merchandising incremental collars (feature and/or display)
- Dollar sales actual change vs. year ago
- Dollar sales % change vs. year ago
- Unit sales actual change vs. year ago

SIG ranked brands for each measure (low to high) and awarded points based on 2012 sales performance. For example, the brand with the highest volume sales received 1 point and the brand with the lowest volume sales received 250 points. This methodology was consistent for each measure used. Points received across each measure were added for a sum total by brand resulting in the final point total.
